

POLICY

Release September 15, 2020

Respect for the environment is an essential component in our tourist activity to ensure sustainability and sustainable development in our campsite, respect both our environment and the natural environment of the eastern plain, Corsica and beyond the planet. .

I. To this end, we have undertaken a European Eco-label approach, which revolves around 4 strategic axes:

- Promote communication and customer education on environmental matters
- Reduce energy and water consumption
- Limit the production of waste (sorting at source)
- Develop the use of renewable energies and substances that are less dangerous for the environment.

An energy diagnosis is being carried out with a study firm labeled RGE Energie, it should make it possible to optimize the existing system and invest in new, more efficient equipment.

II. In order to respect the criteria, and to make A MERENDELLA an establishment that respects the environment, the participation of all the staff is essential, we are counting on you to share this commitment in 2020/21, with good practices on a daily basis. :

- **Energy management**

- ✓ turn off lights and other electrical appliances when not in use
- ✓ Do not leave heating or air conditioning in empty or unoccupied rooms
- ✓ Raising awareness and training of staff

- **Water management**

- ✓ Limit water consumption in the sanitary facilities
- ✓ Do not let the water run if it is not necessary

- **Waste management**
 - ✓ Optimize waste management from a new organization underway in the establishment
 - ✓ Explain to the customer how to sort their waste
 - ✓ Limit the printing of documents by favoring double-sided and draft sheets. Set up a suitable display.

- **Chemicals**
 - ✓ do not exceed the quantity of detergent or disinfectant recommended on the packaging, mainly use Eco-labelled products.
 - ✓ do not dispose of toxic or dangerous substances in sinks or toilets

- **Raising customer awareness of the environment and eco-citizen approach**
 - ✓ be able to explain to customers the environmental approach of the campsite
 - ✓ set up a sorting ambassador and relay people with customers
 - ✓ promote and educate customers about Eco gestures
 - ✓ Communicate with an impactful display

III. This policy constitutes a basis:

- training for staff
- raising awareness for partners and stakeholders integrated into the value chain.

IV. The application of this policy can be found in the 2020-2022 action programme.

V. This policy will be posted on our website and presented at the reception of the residence. It will be sent to our suppliers and service providers. It will be reviewed each year with regard to the progress of the action plan.

VI. In this context, I undertake to release the technical, financial and organizational means necessary for its implementation. It is everyone's responsibility that this process succeeds, it will not be easy but you have all my confidence and we will get there.

The European Eco-label is a step towards setting an example in the Corsican region. My objective is to make this development sustainable, rooted in the territory as an extension of a

regional circular economy of which we will become actors in partnership with ADEME and the communities and this with all of you.

Fratellia Francois.
